

Welcome to Focus-MD!

We give our full attention to ADHD and the problems that go along with it. Our solution looks at the whole patient and we want to begin to get to know you before you arrive for your first visit!

Please fill out the forms that follow completely and feel free to give as much information as needed. Having this information before your appointment helps us use the time at your visit to better address your concerns. We combine the information in this packet and the information you provide during your appointment with our FDA cleared state-of-the-art objective testing to help arrive at a more accurate diagnosis.

Please be mindful that testing is done individually. All children will need to have a caretaker present at all times during the office visit so that your testing and appointment can be conducted. If you are currently taking any medication(s) for ADHD, please DO NOT take these the day of your initial visit so that baseline testing can be achieved.

Whether you are ultimately diagnosed with ADHD and/ or some related condition or not we provide support and recommendations to help you address your concerns. Again, we care about the whole person not just the diagnosis.

If ADHD treatment is needed we will explain our recommendations and provide the same careful attention to treatment that we do when making a diagnosis. When medication is used we work with you to find the right solution. No one wants to change their personality to a zombie state and at Focus-MD we don't want that either! Response to medication varies significantly from one person to another and our solution helps find the optimal dose of the right medication for you.

Medication is usually an important part of treatment and often the first step. Focus-MD is about more than medicine though. We are growing our resources to help with ADHD challenges that may not get better with medication alone.

Finally, Focus-MD provides careful follow-up to ensure you are making progress in reaching your goals with minimal medication side effects. We will discuss a follow-up plan with you during your first visit.

Thank you for choosing Focus-MD. We are committed to taking you and your family from frustration to focus.

Financial Policy

This financial policy contains important information about payment for our professional services. It is intended to help us provide the best possible medical care while also controlling administrative costs. It outlines our responsibilities, and those of our patients, with regard to payment for services.

It is the patient’s responsibility to make payment at the time of service for all services rendered if it is determined that the patient’s insurance policy may not cover our services. You must report ALL insurance coverage correctly. Failure to do so is considered insurance fraud. This will also result in full patient responsibility of your bill. The contract with your insurance company mandates that we collect copays at this time. If a patient finds that they will be unable to pay in full upon check-out, they will be responsible for determining a payment plan agreed upon by Focus-MD *prior to the scheduled appointment*.

For those students whose parent / guardian(s) will maintain responsibility for payment, an authorization for services must be signed by that parent or guardian. As a convenience, the parent / guardian may provide a credit card number and authorize that the co-pay be billed to that card at each visit.

Please note: The party that brings an adolescent patient to an appointment will be responsible for the visit’s copay. We will not be involved in parental court cases. Whoever is documented in the adolescent patient’s PHI consent to disclose will be authorized to receive financial and medical information. Information regarding a visit will be available on the patient portal.

You, the patient, have a contract with your insurance carrier. Our services may or may not be covered by your particular policy. ATTENTION

Due to the rising cost of out of pocket expenses and insurance deductibles, it is required that all patients have a Credit/Debit or Health Savings Account card on file. We are asking all of our patients to leave a credit/debit or HSA card on file that will be used for co-pays, no-show fees and any balances that accrue after insurance has been filed. (As a courtesy you will be notified if your balance is greater than \$100.00 prior to drafting payment.)

If you do not have a card on file and have a balance, you will be required to pay the balance or make payment arrangements before you can be seen by our providers. You will be given one prescription until your balance has been brought current.

We greatly appreciate your understanding and will discuss any questions or concerns regarding this policy that you may have.
